Review [REDACTED] Targets on Albania

REF : St/I Office Notice No.194, 9 September 1958

25X1A8a

Below is the S/CST Contribution to the Review of [REDACTED] Target List, Albania

Background

On page 1, paragraph 3, delete the paragraph from the last sentence and substitute:

The Second Five-Year Plan (1956-60) allots 17 billion leks for construction. This is a 52% increase above the 11.2 billion leks actually spent for construction in the First Five-Year Plan period. The present construction plan was announced in February 1958 as part of a revision of the Second Five-Year Plan. The newly revised Second Five-Year Plan calls for an increase in total investment expenditure of 97% above that of the First Five-Year Plan. Construction will absorb approximately 50% of the total investment expenditure from 1956-60. The distribution of investment for construction has not been announced. There are, however, indications that construction investment for the petroleum industry, mining and agriculture will rise sharply.
